

Bottle Carrier

For Safe Transport of Reagent Bottle

Essential Safety Practices for Transporting Reagent Bottles

The Bottle Carrier protects workers from spills and bottle breakage caused by external impacts.

Robust and Freely
Rotating Handle

Exactly fit for 1L and 4L
Reagent Bottles

Autoclave Safe

4L

1L

Made with TPE Material
(Thermoplastic Elastomer)

Shock Absorption Function

Excellent Durability
and Chemical Resistance

■ TPE(Thermoplastic Elastomer)

: An eco-friendly material that combines the elasticity and impact resistance of rubber with the durability and chemical resistance of plastic

■ User friendly Design:

: Patent registered for its design that enhances user safety and prevents accidents

Item Code	Item Name	Capacity	Color	Dimensions (mm)	Material
SLT-BC-1HR	Bottle Carrier (1L Red)	1L	Red ●	115*190	TPE 92A
SLT-BC-4HR	Bottle Carrier (4L Red)	4L	Red ●	185*270	
SLT-BC-4HB	Bottle Carrier (4L Black)	4L	Black ●	185*270
